

sainmus+

Daniel Romstorfer - Drums

Clemens Sainitzer - Cello, Electronics

Philipp Erasmus - Guitar, Electronics

The viennese trio "sainmus+"

For the Viennese trio "sainmus+" there are no genres or boundaries, all the sounds that can be extracted from the instruments are used, brutally and sensitively! With a wide range from wild effect experiments to free improvisations. Every song has its own sound cosmos, which is live intensively researched and thus makes every concert unique.

Keyword unique: The cover design of the first album was created with the austrian artist Thomas Schrenk, and designed so that the first 200 covers are unique. This means that every concert-goer can take an individual album with them.
